

# Falcon LogScale Architecture Services

Architect your Falcon LogScale log management solution to deliver business outcomes

## Modern log management solutions

Transitioning to a modern log management solution can deliver improved visibility, real-time speed and scale for large data volumes, with a reduced infrastructure footprint and significant cost savings for your organization.

If you're planning on self-managing CrowdStrike Falcon® LogScale in a private cloud or your own data center, the CrowdStrike Services team can provide the expert guidance you need to develop an architecture design and implementation plan for your Falcon LogScale deployment.

## Achieving architectural stability and scalability with Falcon LogScale

CrowdStrike Falcon LogScale Architecture Services helps translate your log management business requirements into infrastructure outcomes with tailored advice on the configuration of your Falcon LogScale platform.

CrowdStrike experts can educate, guide and assist your organization in understanding the core concepts and best practices of designing log management solutions so you can benefit from large-scale logging and analysis with Falcon LogScale.

Learn how Falcon LogScale achieves unparalleled scale and low-latency search at the lowest possible cost with these architectural enablement sessions.

## Key benefits

Save time and money by following best practices from the beginning of your implementation

Avoid mistakes by leveraging the expertise and experience of a Falcon LogScale consultant to architect your system for scalability and performance for any size implementation

Maximize operational performance with an expert review of your production implementation along with recommendations to improve performance

## Key service features

Week 1	Week 2
<b>Self-hosted enablement</b>	<b>Deployment planning</b>
<p>Prior to architectural discussions, CrowdStrike consultants will educate you on Falcon LogScale core concepts and best practices including:</p> <ul style="list-style-type: none"> <li>■ Architecture foundations</li> <li>■ Roles and responsibilities</li> <li>■ Ingest and digest</li> <li>■ Bucket storage</li> <li>■ Cluster coordination</li> <li>■ High availability</li> <li>■ Disaster recovery</li> </ul>	<p>CrowdStrike consultants will work with you to develop your architectural design documents, answer questions about your Falcon LogScale deployment and prepare for cluster configuration sequence planning.</p>
	<b>Expert coaching sessions</b>
	<p>One-on-one sessions with a Falcon LogScale expert will help you avoid common challenges encountered in large-scale implementations.</p>

After you have implemented your Falcon LogScale solution:

<b>Implementation review and knowledge transfer</b>
<p>CrowdStrike consultants will review cluster stability and advise on resource monitoring, cluster maintenance and expansion best practices.</p>

## About CrowdStrike Services

**CrowdStrike Services** delivers Incident Response, Advisory Services, Technical Assessments, Product Support and Training that help you prepare to defend against advanced threats, respond to widespread attacks, enhance your cybersecurity practices and controls and operationalize your technology platform.

We help our customers assess and enhance their cybersecurity posture, implement technologies, test defenses against real-world attacks, respond to incidents, accelerate forensic investigations, and recover from a breach with speed and precision. Harnessing the power of the CrowdStrike® Security Cloud and the CrowdStrike Falcon® platform, we help you protect critical areas of enterprise risk and hunt for threats using adversary-focused cyber threat intelligence to identify, track and prevent attacks from impacting your business and brand.

CrowdStrike:

# We stop breaches.

## Why choose CrowdStrike?

### Proven expertise:

CrowdStrike consultants have extensive firsthand experience architecting, implementing and operating large-scale logging and analysis solutions.

### Superior technology platform:

Falcon LogScale enables organizations to log all of their data and get answers in real time and at unprecedented speed and scale.

### Robust reach-back support:

CrowdStrike's consultants have access to the entire Falcon LogScale ecosystem to help resolve issues quickly.
