

# Falcon Complete

## Managed Detection and Response (MDR)

### Falcon Complete PIONEERED:

A unified, cloud-native platform and machine learning engine based on indicators of attack (IOAs)

The Falcon platform managed as a service

24/7 proactive threat hunting as a service

Hands-on surgical remediation without the need to reimage or rebuild systems

Breach Prevention Warranty\*

CrowdStrike developed the world's first and most advanced cloud-native platform and paired it with 24/7 management, detection, threat hunting and remediation to confidently stop breaches by owning the entire lifecycle of an incident.

### Falcon Complete SETS THE STANDARD for MDR:

#### Platform

- The world's largest threat-centric data fabric
- Correlates trillions of events/day
- World-class artificial intelligence to identify shifts in adversarial tactics and tradecraft
- Enterprise telemetry across endpoints, workloads, identities, DevOps, IT assets and configurations

#### Intelligence

- Largest threat intelligence customer base
- Aggregated intelligence through the CrowdStrike Security Cloud
- Comprehensive threat coverage through leading-edge observability

#### Expertise

- Experts in the platform
- Hundreds of certified analysts (CCFA, CCFR, CCFH)
- Experts in threat hunting and incident response
- Threat hunters uncover and stop tens of thousands of sophisticated threats every year

#### Industry Leader

- Highest detection coverage. 2022 MITRE Engenuity ATT&CK® Evaluations for Security Service Providers.<sup>1</sup>
- A Leader: The IDC MarketScape for MDR 2021<sup>2</sup>
- A Leader: The Forrester Wave™ for MDR<sup>3</sup>

Today's threats are fast and sophisticated and demand an MDR solution that can stay a step ahead of the adversary to keep the customer's environment safe from breaches.

### Falcon Complete DELIVERS:

**Immediate time-to-value**

10 days median time to being onboarded and operational

**Rapid remediation without business disruption**

Faster than the adversary by detecting, investigating, responding and remediating in minutes

**Reduced cybersecurity risk and cost**

More than 400% ROI<sup>4</sup>  
2,500 fewer hours of security incident investigations per year<sup>4</sup>

**Peace of mind**

24/7 security management, monitoring and response  
24/7 Confidence
