

CrowdStrike Marketplace

Discover, try and buy the best solutions for your business

CHALLENGE

With the increase in attack sophistication and more visibility gaps due to silos, organizations are forced to find the right tools to manage and mitigate cyber risk.

- ⊗ Adversaries live in the blind spots and continue to exploit vulnerabilities

71% of attacks are malware-free
([CrowdStrike 2023 Global Threat Report](#))

- ⊗ Disjointed tools result in more complexity and slower investigations

79 minutes is the average eCrime breakout time
([CrowdStrike 2023 Threat Hunting Report](#))

- ⊗ Juggling separate procurement processes can hinder operations

45+ average number of security tools managed by today's enterprises
([Ponemon Institute 2020 report](#))

SOLUTION

Buy it on the CrowdStrike Marketplace to find exactly what you need.

- ✓ **A world-class IT and cybersecurity ecosystem at your fingertips**

Discover, try and buy the best solutions for your business to close gaps and reduce risk – hundreds of trusted partners and their curated offerings are readily available to meet your security needs.

- ✓ **Easy-to-use integrations to streamline operations**

Transform your IT and security stack with interoperable integrations and purpose-built apps that deliver flexibility across your organization to drive down operational overhead.

- ✓ **Built to maximize investments and time-to-value**

Unlock more value from your investments with robust integrations that extend existing tool data and capabilities, and get faster time-to-value with streamlined deployment, unique customer credits and simplified procurement.
