CrowdStrike digital forensics and incident response (DFIR)

Respond quickly to security incidents to stop breaches from disrupting business operations and return to normal operations faster with the following advantages:

- Flexible technology deployment
- Immediate threat visibility
- Identity threat detection
- Active threat containment
- Accelerated forensic analysis
- Real-time response and recovery
- Threat hunting and monitoring
- Managed detection and response

How to engage CrowdStrike Services

If your client requires assistance with an incident response engagement, please contact Adam Cottini or Charlie Groves to coordinate a triage call with the regional services response team and ensure any pre-negotiated consulting rate is applied. You may also use the CrowdStrike IR Breach Hotline or email services@crowdstrike.com.

Please reference the name of your firm, the insurance carrier involved (if applicable) and the location of the client's headquarters so that you can be aligned with the appropriate regional services response team contact.

About CrowdStrike Services

[CrowdStrike Services](#) delivers Incident Response, Technical Assessments, Training and Advisory Services that help you prepare to defend against advanced threats, respond to widespread attacks and enhance your cybersecurity practices and controls.

We help our customers assess and enhance their cybersecurity posture, test their defenses against real-world attacks, respond to incidents, accelerate forensic investigations and recover from a breach with speed and precision. Harnessing the power of the CrowdStrike Security Cloud and the CrowdStrike Falcon® platform, we help you protect critical areas of enterprise risk and hunt for threats using adversary-focused cyber threat intelligence to identify, track and prevent attacks from impacting your business and brand.

CrowdStrike:

We stop breaches.
